EXPERIENCE

[Cognizant](#) , Kochi , India

Developer Lead May 2014 – PRESENT

Working as an Agile team lead and a full stack developer. Building products using React and Node.js. Helping and maintain backlog and writing technical stories, performing architectural duties and completing stories to meet sprint commitments.

Before moving to full stack I worked as a product backend developer and used Spring , JPA and JMS.

[Infosys](#) , Bangalore, India

Senior Systems Engineer Mar 2012 – May 2014

Worked as a backend developer for a UK based (bank) client. Involved in development using Spring, JMS and oracle. Also participated in unit testing and customer interaction /requirement gathering.

In a different project for another client (which was also a UK based bank), participated backend development using Struts1.1.
